

### What you need to bring to Glamp 2023

- Sleeping bag or other bedding
- Pillow
- Towel
- Dinner for Friday – you can bring something to heat up or cook it in the kitchen. Note this is NOT a pot luck – you need to cater for yourself. On other Glamps, groups have arranged to cook together. Please keep your food simple so that only a minimum of cooking time is required. Microwave and ovens available.
- Lunch for both Saturday and Sunday – something easy to take on a walk with you. You can prepare your lunch in the kitchen but you must bring your own lunch wrap or container. Some may prefer to buy lunch at local shops if you are part of the walk/bike/winery activities on Saturday.
- Baking/biscuits/bottled fruit to share if you are able and willing
- Any extra drinks other than tea/coffee/water that you might want to indulge in (alcohol is OK in moderation)
- Money (cash) for your car driver if you are a passenger, and food if you haven't paid in advance. No IOUs!
- Sturdy walking shoes, depending on the walks you plan to do
- Comfortable walking clothes - ensure that you have enough warm layers
- Raincoat
- A day pack to take with you on walks
- Water bottle and nibbles for the walk (nuts, dried fruit or muesli bars are good)
- Sunhat, sunblock and insect repellent
- A walking pole if you have one, but don't buy one especially – there may be some spares available or a sturdy stick will do
- Your bike (and helmet) if you want to do some biking on the Wither Hills tracks on Saturday morning
- Games, etc, if you want to for the evenings
- Crafts if you wish
- Personal toiletries and medication – you are responsible for your own medic-alert related medicines.
- A named, lidded plastic container is useful to keep your things in the fridge, and to take home leftovers
- (Non-perishables are kept for the following year, but there is usually some food to share out)

## Directions to Pine Valley Camp

Drive towards Blenheim, going past Havelock to Kaituna, which is just before the Wairau River Bridge. Total journey for that bit is 100km if you want to use your odometer. Keep a look out for Northbank Rd which will be on your right just before the Wairau River Bridge.

Turn right on to Northbank Rd. If you go over the bridge you have gone too far. The camp is about 25km along this road (part of which is gravel so take it easy on this bit). **NOTE: About 4 kms from the main road turnoff, keep a look out for the intersection with Onamalutu Rd, shown by the arrow (and look at the photo below). Keep left on North Bank Rd, rather than going right on Onamalutu Rd.** After another 20km or so, turn right on to Pine Valley Rd and the camp is just up the road on the left. Plenty of parking inside the gate.
